TECHNICAL SKILLS

Frameworks & Libraries: NumPy, Pandas
Programming Languages: Python, JavaScript, SQL, HTML/CSS, C/C++
Tools & Other: Git/GitHub, Google Colab, Excel, Power BI

INTERNSHIP

Pragyan AI — Data Science Intern
Bengaluru, India | January 2026 – April 2026

PERSONAL PROJECTS

Operating Systems Lab Portal
Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MySQL, JWT, xterm.js

- Developed a secure web portal for learning and practicing Operating System concepts.
- Built authentication, lab history tracking, dashboards, and Linux command execution modules.
- Integrated frontend and backend using React.js, Node.js, and MySQL.

PragyanAI Placement Funnel & Interview Intelligence Engine View Project

Tech Stack: Python, Pandas, NumPy, Power BI, Excel

- Analyzed placement trends of 200,000 students across Data Science, AI, and GenAI domains.
- Identified interview bottlenecks through round-wise failure and skill-gap analysis.
- Built dashboards for funnel visualization, salary distribution, and placement prediction.

EDUCATION

Brindavan College of Engineering | Sept 2023 – May 2026
Information Science and Engineering (ISE) | Bengaluru, India

Dr. S. & S. S. Ghandhy College | Sept 2020 – Jan 2023
Information Technology (IT) | Surat, India

CERTIFICATIONS

- Pragyan AI Internship Certificate
- Future Skills for Youth

TASK 2: LINKEDIN PROFILE

Profile details for Module 1: Communication

1. LINKEDIN PROFILE URL

https://www.linkedin.com/in/abdulahad-shaikh-b83094424/

2. PROFILE PICTURE

A professional profile picture is present on the LinkedIn profile.

3. HEADLINE

Aspiring Data Analyst | Data Science Intern at Pragyan AI | Python | SQL | Power BI | Excel

4. ABOUT / SUMMARY

I am an Information Science and Engineering graduate with an interest in Data Science, Data Analytics, and Software Development. I completed a Data Science internship at Pragyan AI, where I gained exposure to practical data science workflows. My technical skills include Python, SQL, Pandas, NumPy, Microsoft Excel, and Power BI. I also have experience working with React.js, Node.js, Express.js, and MySQL through personal projects. My projects include an Operating Systems Lab Portal and a Placement Funnel & Interview Intelligence Engine, where I explored web application development, placement trends, interview bottlenecks, and data visualisation. I am eager to learn new technologies, solve practical problems, and contribute to meaningful projects. I am interested in entry-level opportunities in Data Analytics, Data Science, and related IT roles.

5. EXPERIENCE

Data Science Intern — Pragyan AI
Bengaluru, India | January 2026 – April 2026

6. SKILLS

Python, SQL, Pandas, NumPy, Microsoft Excel, Power BI, JavaScript, HTML, CSS, C/C++, React.js, Tailwind CSS, Node.js, Express.js, MySQL, Git, GitHub, Google Colab

7. CERTIFICATIONS

- Pragyan AI Internship Certificate
- Future Skills for Youth

FINAL SUBMISSION CHECKLIST

☐ Upload the CV PDF to the Career Centre.

☐ Submit the updated LinkedIn profile URL to the Career Centre.
